KARLA DUTERLOO

La subida

INTERNATIONAL MOSAICS SYMPOSIUM

THE SPONSOR

- *La Subida has always been deemed an excellent trattoria: the “al Cacciatore” – or hunter’s – trattoria, run by a large family one calls on when one wants to eat and feel good. Nowadays, La Subida intends to propose itself as a PLACE, a place where one goes to feel well, relax, stay on a little to unwind! That is what we would like to communicate with our new image.*

THE ARTIST

Karla Duterloo is an award winning artist with years of experience in the field of mosaic. Her expertise as a mosaic artist has allowed her to develop a truly authentic and unique style. This is particularly recognisable in her series of Nguni and other wild animal heads (buck, kudu, deer and buffalo).

THE MASTERPIECE

I like the idea of working with the interesting shapes of the staves that evolved from the mutation of dismantling and modifying the barrel. Now taking these staves to an unexpected path and reform these in a work of art, sounds to me a challenging task.

I would like to explore the option to convert parts of the staves which I am going to saw from the barrel, by stacking and arranging these pieces in different directions into a totem sculpture.

As my research shows Alchemy in science was based on the belief that there are four basic elements in nature: air, fire, water and earth.

THANK YOU
